## **Kearney Added to the City Health Dashboard**

Kearney- TRPHD is excited to announce that Kearney is now featured on the City Health Dashboard. Earlier this year, TRPHD partnered with the City of Kearney, the University of Nebraska at Kearney, Kearney Regional Medical Center, and Good Samaritan Hospital to apply for the 2nd annual City Health Dashboard Put Us on the Map Challenge - an opportunity for smaller cities to make their case for why their city should be added to the Dashboard.

Each of these communities – ranging in population from 3,000 to 50,000 - faces unique challenges when it comes to health and has different ideas for how to drive change locally. But one common theme emerged across all of the applications, and that was the importance of having easily accessible, localized data to help support efforts to improve health and equity for residents. The core components of the Dashboard are free to all users.

Two Rivers Public Health's regular office hours are 8:00 a.m. to 4:30 p.m. Monday through Friday. The office can be contacted at 888-669-7154.

### **ABOUT TWO RIVERS PUBLIC HEALTH DEPARTMENT**

Two Rivers Public Health Department engages collaborative partners, community leaders and the public to promote healthy lifestyles, provide preventative education, assure environmental quality, and create more healthy and safe communities for all who live within the district.
